

Karaoke Project "Geração Coca-Cola" - Workana

****Project Overview****

This is an interactive karaoke project developed for the iconic song "Geração Coca-Cola" by the Brazilian band Legião Urbana. The main goal is to offer an immersive experience for fans of the band, allowing them to follow the lyrics of the song in sync with its playback.

****Main Features****

- * **Synchronized Lyrics:** The lyrics are dynamically displayed on screen, with the current line highlighted in real-time as the song progresses. This helps users sing along easily.
- * **Intuitive Audio Controls:** The interface offers essential audio controls for a full karaoke experience:
 - * **Play:** Starts the music playback.
 - * **Pause:** Temporarily stops the playback.
 - * **Stop:** Stops the music and returns to the beginning.
 - * **Volume Control:** Allows easy volume adjustment through a slider.
- * **Thematic Design:** The page is visually themed around Legião Urbana, using a background image of the band to create an authentic, nostalgic atmosphere.
